everything is better printed

In today's digital age, I totally get the convenience of sharing your photos online. But there's something truly special about turning those digital memories into a beautiful, tangible wedding album.

Choosing a album provider has taken time to ensure the quality of the book fits with my aesthetic and the high level of quality I want to provide for my couples. You can feel the difference in the paper quality, in the thickness and also the colours that reflect from the pages.

I want your wedding album to last a lifetime, it is a family heirloom and an investment, after-all.

The design of your album is something I take a lot of care and consideration for also. I allow lots of feedback in the process to make sure your final album is exactly how you envisioned.

LAY-FLAT DESIGN

All albums are lay-flat so you can print images across the spine for that extra wow factor on landscape photos.

COMPLIMENTARY ALBUM DESIGN

Design your album stress-free! I handle the design process, offering 3 rounds of changes. Swap images or tweak the layout to ensure your vision is perfect.

30 SPREADS

Each album offers 30 spreads (15 pages) to print onto. I find 30 is the perfect number to ensure you get all your favourite images in there but if you need extra you can purchase more.

DOWNSCALED VERSIONS

Each album offers downscaled versions of the main album if you want to gift one to a friend or family member

COLOUR OPTIONS

There are a myriad of colour options to choose from in both leather and linen.

PERSONALISED COVER

All albums includes a personalised front cover so you can add your names or even your wedding date to the front.

For leather this is debossed into the material and laser etched onto linen.

THE STORYBOOK

with either two fonts:

Futura

Perpetua

LASER ETCHING

The finish on laser etched may vary
depending on the material type and
colour selected.

Metallic foil available in:
Gold, Silver and Rose Gold.

ORDERING YOUR

album

STEP ONE

CHOOSE YOUR ALBUM

Choose between the Story-book Linen and Fine Art Leather. The differences between the two lie in the page quality and the type of cover. Our best selling album is the Fine Art Leather in Large

STEP TWO

SELECT YOUR IMAGES

When you are ready to choose your images you will do this from your online gallery. I will provide a link with instructions on how to do this. Select around 80-100 favourites spanning the whole day. Not all images will make it into the final album but the next stage you get to cull this down further.

STEP THREE

DESIGNING

The album design is done by myself. It includes 3 rounds of changes - first, second and third draft. So you have chance to swap images or change the layout to make sure your vision is perfect.

STEP FOUR

CHOOSE YOUR COLOURS

There are a myriad of colour options to choose from in both leather and linen. The final stage is to choose the colour of your cover and also your personalisation for the front cover. This could be your names or your wedding date.
